

Top 50 Financial Advisor Blogs And Bloggers

The rankings for this list of the top 50 financial advisor blogs and bloggers are determined using website metrics measured by [Moz Analytics](#), including Page Authority and MozRank, as well as additional traffic metrics measured by [Alexa](#). (See [here](#) for the exact scoring formula that was used to determine who's "best of the best!") Blogs must operate on a standalone advisor-controlled domain or subdomain to be considered (i.e., blogs published solely on a larger multi-blog platform will not be considered).

To be eligible, advisors must actually be registered as such, either through an SEC- or state-registered RIA, or as a registered representative of a broker-dealer. Advisor registration status details and blog data updates are powered by [BrightScope](#). *Blog data (and advisor rankings) are updated at the end of every month.*

To have your blog considered for this list, be certain to [find and claim your AdvisorPage profile](#) and submit your blog information via [BrightScope](#).

For the embed code to post a top advisor blog badge to your own website, [click here](#) or scroll to the bottom of this page.

Last best financial advisor blogs data update as of February 29, 2016.
